Executive Editor Romano Petitti

Cover and division page design by Laboratorio srl, Milano, Italy

Uleb would like to thank all the 24 Clubs and their Press Officers for their co-operation in the production of the 2002-2003 Official Media Guide.

Welcome to the ULEB CUP. This new competition was born thanks to the initiative of the European Professional Basketball Leagues. Its main goal is to make compatible the existence of a competition with the highest sport and professional levels with the economic and sociological reality of European basketball.

We want the ULEB CUP to be a competition that raises hopes amongst the media and the fans by its sports quality. And also amongst the participating clubs, since the winning team will enter the Euroleague.

The ULEB CUP starts with the vocation of having its own personality. We know the great potential this competition has and, to turn it into reality, we have developed its own management structure, which changes this competition into a different and quality product, provided with its own corporate image. This competition completes the European map of professional basketball, in which the clubs have responded to the double challenge, at the sport and management levels, and represents competing in the framework of professional sport.

This first edition of the ULEB CUP Official Media Guide, immediately accessible to fans and the media in digital format, is now a reality and expresses the will to bring the competition to all the people and entities who work and enjoy this great sport: basketball.

Good luck to all the participants, many thanks for the effort made to start and run the ULEB CUP, and I hope everyone enjoys this exciting competition.

Eduardo Portela
